

Two interiors. One clear system.

These diagrams explain where a page is cut and where text stays safe. The coloured lines appear in this guide only - never inside the two printable interiors.

PAPERBACK BOOK

FINAL TRIM

6 x 9 in

PDF PAGE WITH BLEED

6.25 x 9.25 in

Black-and-white / 32 pages

PREMIUM MAGAZINE

FINAL TRIM

8.5 x 11 in

PDF PAGE WITH BLEED

8.75 x 11.25 in

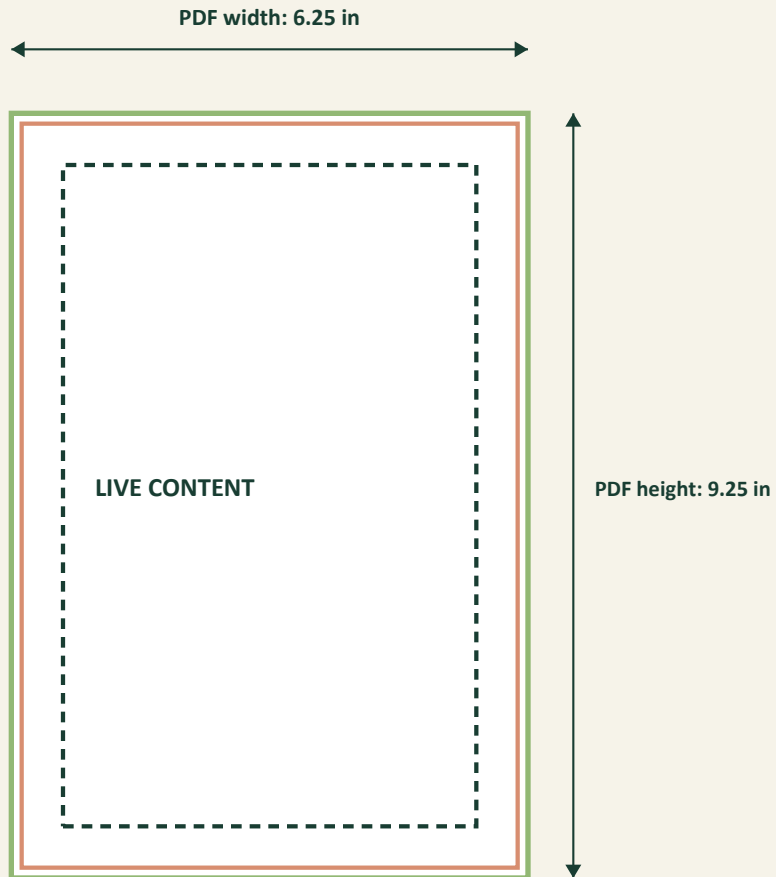

Premium colour / 32 pages

INTERIOR ONLY

A complete printed product also needs a separate, one-piece full cover PDF sized for the exact page count and binding.

Paperback page anatomy

6 x 9 in trim / 6.25 x 9.25 in PDF page

GREEN = PDF EDGE / BLEED EDGE

CORAL = CUT / FINAL TRIM

DASHED = MINIMUM LIVE-TEXT SAFE AREA

Bleed: 0.125 in (3.175 mm) beyond each trim edge.

Minimum safe area: keep live text 0.5 in (12.7 mm) inside trim.

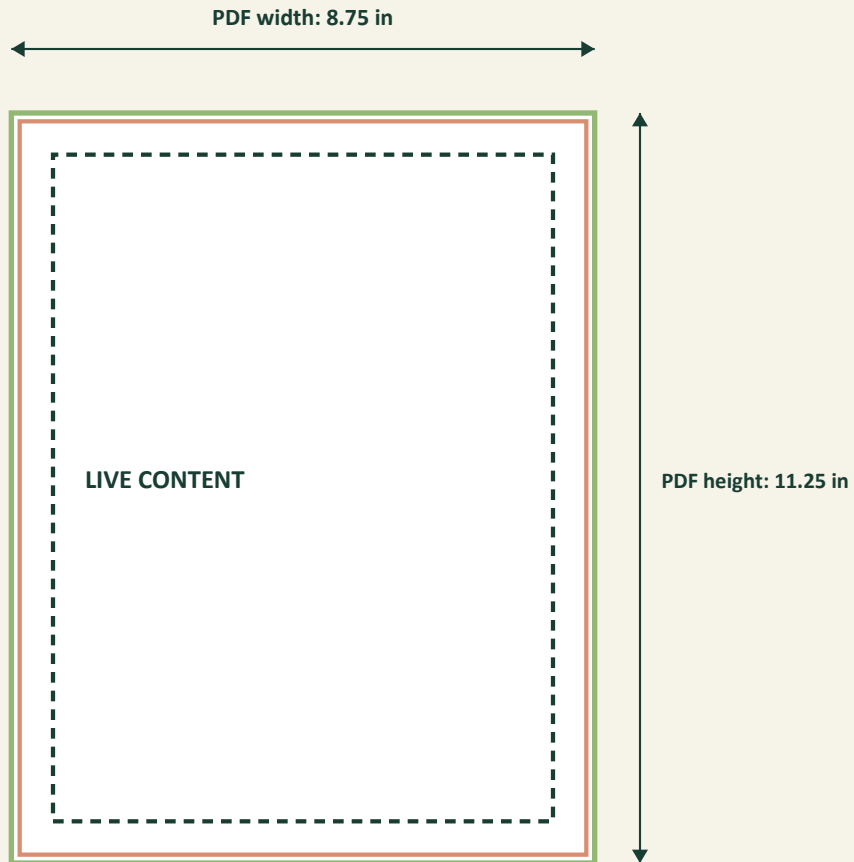

Binding edge: allow at least 0.2 in (5.08 mm) additional gutter.

Odd PDF pages print on the right; even pages on the left.

Measurements are diagrams, not an upload overlay.

Magazine page anatomy

8.5 x 11 in trim / 8.75 x 11.25 in PDF page

GREEN = PDF EDGE / BLEED EDGE

CORAL = CUT / FINAL TRIM

DASHED = MINIMUM LIVE-TEXT SAFE AREA

Bleed: 0.125 in (3.175 mm) beyond each trim edge.

Minimum safe area: keep live text 0.5 in (12.7 mm) inside trim.

Binding edge: allow at least 0.2 in (5.08 mm) additional gutter.

Odd PDF pages print on the right; even pages on the left.

Measurements are diagrams, not an upload overlay.

Before you upload

A short production checklist for the two sample interiors and their separate wraparound covers.

01**Choose one format**

Match the book or magazine print style to the PDF dimensions shown in this guide.

02**Keep the interior clean**

Upload the corresponding 32-page interior PDF. Do not add guides, crop marks or passwords.

03**Use a full wraparound cover**

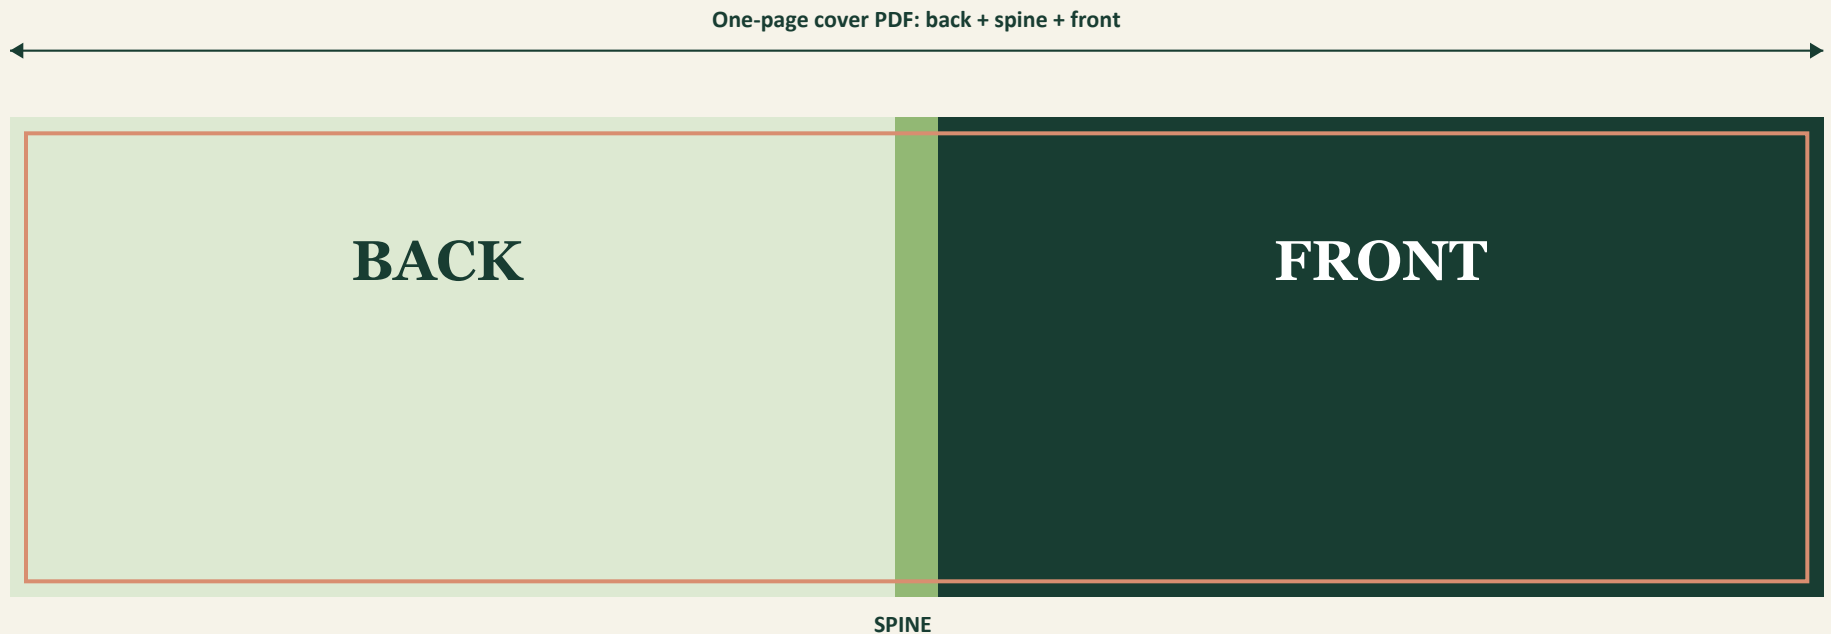

Choose the matching back-spine-front PDF. The magazine cover in this kit is a size-check draft.

04**Run validation**

Review the returned page count, cover size and file warnings before offering a printed edition.

One cover. Three parts.

A printable softcover is one PDF page: back panel, spine and front panel. Exterior bleed runs around the outside; no cutting guides belong in the uploaded cover.

PAPERBACK / 32 PAGES

Sample cover canvas: 892 x 666 pt (previously verified for this book preset).

MAGAZINE / 32 PAGES

Draft canvas: 1252 x 810 pt. Replace with the exact size returned by print review.

How to share this kit

Give sellers the examples as learning material. Treat every commercial print edition as its own file-validation project.

SHARE

Publish this guide and the sample files in a clearly labelled help/download area. They demonstrate the format; they are not blank templates.

REPLACE

For a real book, replace the story, magazine text, artwork, title, credits and cover with the rights-holder's own approved content.

VALIDATE

Upload the interior first. Confirm the page count and required cover size. Revise the full cover if necessary, then validate both files.

RELEASE

Only after review, price and shipping tests should you enable a customer-facing printed edition. Keep real manuscripts in private storage.
